

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

American Hospitals.

COLLECTED AND ARRANGED

—BY—

C. F. TAYLOR, M.D.,

EDITOR OF

THE MEDICAL WORLD.

Second Edition, Enlarged.

LAWRENCE
PUBLISHED BY
"THE MEDICAL WORLD,"
1520-1522 CHESTNUT STREET,
PHILADELPHIA.
B

reprinted, 1930, by C. F. Taylor.

1886

Introduction to the First Edition.

IN collecting the matter for this book, all the principal, and nearly all the minor Hospitals in the United States were either visited or communicated with. Some hospitals have a printed list of formulae; others have a few standard prescriptions, and still others have no established formulae at all. The printed lists, the established prescriptions from those hospitals not having printed lists, and all other information of value, have been collected and are here presented. Omitting the lists of two or three hospitals that replied (strangely) "Not for publication," the writer feels that this collection is quite as complete as can well be made.

It is scarcely necessary to state that these formulae do not represent the entirety of hospital practice. Certain mixtures being found useful in a large number of cases, they are prepared in large quantities to facilitate dispensing. This is important where a large number of cases are treated daily. Special cases, or cases presenting unusual indications, are treated according to indications presented. The writer has no admiration for doctors who blindly follow printed formulae, and it is farthest from his desire that this book should encourage this large class of practitioners. The benefit intended is to place before the profession the remedies and combinations of remedies found most useful in our hospitals. The study of these cannot fail to give many hints and suggestions useful in private practice. It is hoped that the unlocking of these store-houses of experience will be considered a service to the profession.

C. F. TAYLOR.

PHILADELPHIA, August, 1885.

Introduction to the Second Edition.

THE writer is highly gratified to see that the first edition of this book is so soon exhausted, and that another is called for. It has been suggested that an index be added; but when it is noticed that the table of contents may serve as an index to the hospitals, and that most of the hospitals have their formulae divided into departments, such as liniments, pills, mixtures, etc., it will be seen that further indexing is quite unnecessary. It has been remarked by a few that the directions and indications for the use of each formula are generally not given. It has been our aim to present the different pharmaceuticals just exactly as they exist in the different hospitals, without assuming the responsibility of adding, subtracting or changing a single word. We will say that it is presumed that each hospital physician can safely rely upon his knowledge of pathology and therapeutics for the intelligent use of a formula; it is hoped that the same presumption may as safely be extended to the average private practitioner.

PRESCRIBING MANUAL
OF THE
DISPENSARY
OF THE

Hospital of the Protestant Episcopal Church
OF
PHILADELPHIA.

In prescribing, the Physician will write the *number* of the prescription, its *title*, the quantity to be dispensed, and the *directions* for using, e. g.:—

For.....

R No 2.—Liquor Potassii Bromidi, fʒ iij
Sig One teaspoonful, diluted, three times a day.

Date.

Signature.

Unless otherwise directed, the apothecary will always dispense three fluid ounces (fʒ iij) of the fluid preparations, when the dose ordered is one fluid drachm (fʒ j), and six fluid ounces (fʒ vj) when the dose is half a fluid ounce (fʒ ss).

MEDICINES
FOR
INTERNAL ADMINISTRATION.

NOTE.—The following formulæ are designed for adults only.

LIQUORES.

1.—Liquor Potassii Bromidi (Nervous Sedative.)

R	Potassii bromidi.....	gr. v
	Aqua.....	fʒ j .
M.—Dose, fʒ j-iv, diluted, three times daily.		—o—

MISTURÆ.

2.—Mistura Arsenicalis (Alterative).

R	Liq. potassii arsenitis.....	m. v
	Infus. gentianæ comp..... q. s...ad.	fʒ j
M.—Dose, fʒ j, diluted, thrice daily, after meals.		—o—

3.—Mistura Hydrargyri et Ferri Chloridi.

R	Hydrargyri chloridi corrosivi.....	gr. 1-24
	Tinct. ferri chloridi.....	m. v
Infus. gentianæ comp..... q. s...ad.		fʒ j
M.—Dose, fʒ j, diluted, thrice daily.		—o—

4—Mistura Potassii Iodidi (α).

R	Potassii iodidi.....	gr. v
	Infus. gentianæ comp.....	fʒ j
M.—Dose, fʒ j-iv, diluted, thrice daily.		

5.—Mistura Potassii Iodidi (b).

R	Potassii iodidi.....	gr v
	Vini colchici seminis.....	ml x
	Tinct. guaiaci ammoniat.....	ml xx
	Tinct. gentianæ comp.....q. s...ad.	fʒ j
M.	Dose, fʒ j-ij, three or four times daily.	

6.—Mistura Creasoti (Antacid).

R	Aquæ creasoti.....	fʒ j
	Sodii bicarbonatis.....	gr. x
	Misturæ cretæ.....q. s...ad.	fʒ ss
M.	Dose, fʒ ss, three times a day.	

7.—Mistura Sodii Bicarbonatis (a).

R	Sodii bicarbonatis.....	gr. x
	Tinct. gentianæ comp.....	fʒ j
	Aquæ.....q. s...ad.	fʒ ss
M.	Dose, fʒ ss, three times a day.	

8.—Mistura Sodii Bicarbonatis (b).

R	Sodii bicarbonatis.....	gr. v
	Sp. ammon. aromat.....	ml xx
	Aq. menthæ pip.....q. s...ad.	fʒ j
M.	Dose, fʒ j-ij, three times a day.	

9.—Mistura Acidi Salicylici (Antipyretic).

R	Acidi salicylici.....	
	Sodii bicarbonatis.....	gr. v
	Aquæ.....	ml xl
M.	et adde—	
	Tinct. aurantii cort.....	ml v
	Glycerinæ.....	ml xv
M.	Dose, fʒ j, every two or three hours.	

10.—Mistura Lobeliae Comp. (Antispasmodic)

R	Tinct. lobeliæ.....	m. x
	Tr. hyoscyami.....	m. xxx
	Sp. ætheris comp.....	m. x
	Syr. tolutani.....q. s....ad.	fʒ j
M.—Dose,	fʒ j,	every three hours.

11.—Mistura Acidi Sulphurici (a—Astringent)

R	Acidi sulphurici aromat.....	m. x
	Tinct. opii deodoratæ	m. v
	Syrupi rubi.....	fʒ j
	Aquæ.....q. s....ad.	fʒ ij
M.—Dose,	fʒ ij,	every three or four hours.

12.—Mistura Cretæ Comp.

R	Tr. opii.....	m. v
	Tinct. krameriae.....	fʒ j
	Spt. lavandulae comp.....	m. xv
	Mist. cretae.....q. s....ad.	fʒ ss
M.—Dose,	fʒ ss,	every three or four hours.

13.—Mistura Pepsinæ Comp. (Digestant.)

R	Pepsinæ.....	gr. x
	Ac. muriatici dil.....	m. xv
	Syrupi	fʒ ss
	Aquæ.....q. s....ad.	fʒ ij
M.—Dose,	fʒ ij,	diluted, thrice daily.

14.—Mistura Digitalis Comp. (Diuretic).

R	Tinct. digitalis.....	m v
	Potassii acetatis.....	gr. xx
	Spt. ætheris nitrosi.....	f $\frac{2}{3}$ j
	Aquaæ.....q. s...ad.	f $\frac{2}{3}$ ss

M.—Dose, f $\frac{2}{3}$ ss, three times a day.

15.—Mistura Ammon. Comp. (Expectorant).

R	Copaibæ.....	m v
	Ext. glycyrrhizæ pulv.....	gr. x
	Ol. anisi.....	m ij
	Misturæ ammoniaci.....q. s...ad.	f $\frac{2}{3}$ j

M.—Dose, f $\frac{2}{3}$ j, every three or four hours.

16.—Mistura Ammonii Chloridi (a).

R	Ammonii chloridi.....	gr. v
	Mist. glycyrrhizæ comp.....	f $\frac{2}{3}$ j

M.—Dose, f $\frac{2}{3}$ j-ij, every two or three hours.

17.—Mistura Ammonii Chloridi (b).

R	Ammon. chloridi.....	gr. v
	Potassii iodidi.....	gr. ij
	Glycerinæ	m xx
	Syr. senegæ.....	m xv
	Aquaæ.....q. s...ad.	f $\frac{2}{3}$ j

M.—Dose, f $\frac{2}{3}$ j, every two or three hours.

18.—Mistura Potassii Cyanidi.

R	Potassii cyanidi.....	
	Morphiae sulph.....	gr. 1-16
	Syr. tolutani.....	f $\frac{2}{3}$ ss
	Aquaæ.....q. s...ad.	f $\frac{2}{3}$ j

Dose, f $\frac{2}{3}$ j, every six hours.

19.—Mistura Ergotæ Comp. (a—Hæmostatic).

R	Ex. ergotæ fluidi.....	m. xx
	Tinct. digitalis.....	m. ij ss
	Tinct. opii deodorat.....	m. iij
	Aquaæ cinnamomi.....q. s...ad.	fʒ j

M.—Dose, fʒ j, every one, two or three hours.

20.—Mistura Ergotæ Comp. (b).

R	Ex. ergotæ fluidi.....	fʒ ss
	Potassii bromidi.....	gr. xv
	Aquaæ cinnamomi.....q. s...ad.	fʒ j

M.—Dose, fʒ j-ij, p. r. n.

21.—Mistura Ferri Acida (Laxative and Cathartic).

R	Ferri sulphatis.....	gr. j
	Magnesii sulphatis.....	gr. xl
	Acidi sulphurici dil.....	m. viij
	Infus. quassiae.....q. s...ad.	fʒ ss

M.—Dose, fʒ ss, once or twice daily, well diluted.

22.—Mistura Sodii Bicarbonatis (c).

R	Sodii bicarbonatis.....	
	Aloes socotrinæ.....āā...	gr. x
	Spirit. lavandule comp.....	fʒ ss
	Aquaæ.....q. s...ad.	fʒ ss

M.—Dose, fʒ ij-iv, once or twice daily.

23.—Mistura Ammonii Carbonatis (a—Stimulant.)

R	Ammon. carbonatis.....	gr. v
	Syr. tolutani.....	fʒ ss
	Mucilag. acacieæ.....q. s...ad.	fʒ l

M.—Dose, fʒ ij-ij, every three hours.

24.—Mistura Nitro-Muriatici (Tonic and Antiperiodic).

- R Acidi nitro-muriatici dil..... m_l x
 Infus. gentianæ comp.....q. s...ad. f₃ j
 M.—Dose, f₃ j, diluted, three times daily.
-

25.—Mistura Cinchonidæ.

- R Cinchonidæ sulphatis..... gr. ij
 Acidi sulphurici dil..... m_l iv
 Aquaæ.....q. s...ad. f₃ j
 M.—Dose, f₃ j-ij.
-

26.—Mistura Ferri Acetatis.

- R Liquor ammonii acetatis..... f₃ j, m_l xl
 Acidi acetici dil.....
 Tinct. ferri chloridi.....āā... m_l x
 M.—Dose, f₃ j-ij, three or four times a day.
-

27.—Mist. Ferri Acetat. et Strychniæ.

- R Strychniæ sulphatis..... gr. 1-30
 Mist. ferri acetatis..... f₃ ij
 M.—Dose, f₃ j-ij, thrice daily.
-

28.—Mistura Ferri Comp.

- R Strychniæ sulphatis..... gr. 1-60
 Cinchonæ sulphatis..... gr. ij
 Tinct. ferri chloridi..... m_l x
 Acidi muriatici dil..... m_l v
 Aquaæ.....q. s...ad. f₃ j
 M.—Dose, f₃ j, diluted, thrice daily

29.—Mistura Gentianæ Comp.

R.	Ferri et ammonii citratis.....	gr. x
	Tinct. gentianæ comp.....	fʒ j
	Spirit. lavandulæ comp.....	fʒ j
	Syrupi.....	fʒ j
	Aquæ.....q. s....ad.	fʒ ss

M.—Dose, fʒ ss, three times daily.

30.—Mistura Strychniæ (a).

R.	Strychniæ sulph.....	gr. 1-48
	Acidi muriatici dil.....	m x
	Syrupi simplicis.....	m xx
	Aquæ.....q. s....ad.	fʒ ij

M.—Dose, fʒ ij, diluted, thrice daily.

31.—Mistura Strychniæ (b).

R.	Strychniæ sulphatis.....	gr. 1-48
	Ac. phosphorici dil.....	m xx
	Syrupi simplicis.....	m xx
	Aquæ.....q. s....ad.	fʒ j

Dose, fʒ j, diluted, thrice daily.

PILULÆ.**32.—Pilula Zinci Oxidi (Anticolliquative).**

R.	Zinci oxidi.....	gr. iij
	Ex. belladonnæ.....	gr. ss
	M. et ft. pil. no. j.—Dose, one pill at night.	

33.—Pilula Quiniaæ et Digitalis (Antipyretic).

- R Quiniaæ sulphatis..... gr. ij
 Pulv. digitalis..... gr. ss
 Pulv. opii..... gr. $\frac{1}{4}$
 M. et ft. pil. no. j.—Dose, one pill every six hours.
-

34.—Pilula Argenti Nitratis (Astringent).

- R Argenti nitratis..... gr. 1-6
 Ext. gentianæ..... gr. j
 M. et ft. pil. no. j.—Dose, one pill every four or six hours.
-

35.—Pilula Argenti Nitrat. et Opii.

- R Argenti nitratis.....
 Pulv. opii..... $\frac{1}{2}$... gr. $\frac{1}{4}$
 Ext. gentianæ..... gr. j
 M. et ft. pil. no. j.—Dose, one pill every four or six hours.
-

36.—Pilula Cupri Sulphatis.

- R Cupri sulphatis..... gr. 1-6
 Pulv. opii..... gr. 1-6
 Ext. gentianæ..... gr. j
 M. et ft. pil. no. j.—Dose, one pill every four or six hours.

37.—Pilula Colocynth Comp. (Cathartic).

R	Ex. colocynth comp.....	gr. ij
	Res. podophyllin.....	gr. $\frac{1}{8}$
	Ex. belladonnae.....	gr. i-6
	Ex. gentianæ.....	gr. j
	Olei carui.....	gtt. ss

M. et ft. pil. no. j.—Dose, one pill at night, or night and morning.

PULVERES.**38.—Pulvis Sodii Comp. (Antacid).**

R	Sodii bicarbonatis.....	gr. v
	Bismuthi subcarbonatis.....	gr. x

M. et ft. chart. no. j.—Dose, one powder thrice daily.

39.—Pulvis Kameelæ (Anthelmintic).

R	Pulv. kameelæ.....	3 j
---	--------------------	-----

Ft. chart. no. j.—Dose, one or two at night, or night and morning.

40.—Pulvis Bismuthi (Astringent).

R	Bismuthi subnitratis.....	3 j
---	---------------------------	-----

Ft. chart. no. j.—Dose, one powder thrice daily.

41.—Pulvis Bismuthi et Ipecac.

R	Bismuthi subnitratis.....	gr. x
	Pulv. ipecac. comp.....	gr. iiij

M. et ft. chart. no. j.—Dose, one powder every three or four hours.

42.—Pulvis Bismuthi et Morphiae.

- R Bismuthi subnitratis..... gr. x
 Morphiae sulphatis..... gr. $\frac{1}{6}$
 M. et ft. chart. no. j.—Dose, one every four or six hours.
-

43.—Pulvis Bismuthi et Pepsinæ (Digestant)

- R Bismuthi subnitratis.....
 Pepsinæ aa... gr. x
 M. et ft. chart. no. j.—Dose, one powder thrice daily.
-

44.—Pulvis Sodii et Pepsinæ.

- R Sodii bicarbonatis..... gr. v
 Pepsinæ..... gr. x
 M. et ft. chart. no. j.—Dose, one powder thrice daily.
-

45.—Pulvis Buchu Comp. (Diuretic).

- R Foliae buchu.....
 Foliae uvæ ursi.....
 Sem, lini..... aa... $\frac{2}{3}$ j
 Sodii bicarbonatis..... ss
- M. et ft. chart. no. j.—Sig. Add two pints of boiling water; when cold, strain. Dose, a wineglassful thrice daily.

MEDICINES
FOR
CHILDREN..

In the following formulæ the doses have been proportioned for children who have reached the age of two years:

MISTURÆ.

46.—Mistura Olei Morrhuae (Alterative).

R	Olei morrhuae.....	fʒ ss
	Syr. calcii lacto-phosphat.....	
	Aquaæ calcis.....āā...	m. xv
M.	Dose, fʒ j-ij, three times daily	

47.—Mistura Potassii Arsenitis.

R	Liquor potassii arsenitis.....	m. ij
	Syr. simplicis.....	fʒ ss
	Aquaæ.....q. s...ad.	fʒ j
M.	Dose, fʒ j, thrice daily.	

48.—Mistura Potassii Iodidi (c).

R	Potassii iodidi.....	gr. j
	Syr. sarsap. comp.....	
	Aquaæ.....āā...	fʒ ss
M.	Dose, fʒ j-ij, thrice daily.	

49.—Mistura Antacida (Antacid).

- R Liquor calcis.....
 Aq. cinnamomi..... $\ddot{\text{a}}\ddot{\text{a}}$... f $\frac{3}{3}$ ss
 M.—Dose, f $\frac{3}{3}$ j-ij, every one, two or three hours.
-

50.—Mistura Sodii et Rhei.

- R Sodii bicarbonatis..... gr. ij
 Syr. rhei aromat..... m. xv
 Aq. menth. pip..... q. s...ad. f $\frac{3}{3}$ j
 M.—Dose, f $\frac{3}{3}$ j, every two or three hours.
-

51.—Mistura Chloral. Hydrat. (Antispasmodic)

- R Chloral. hydrat..... gr. ij
 Potass. bromidi..... gr. v
 Syr. simplicis.....
 Aquæ..... $\ddot{\text{a}}\ddot{\text{a}}$... f $\frac{3}{3}$ ss
 M.—Dose, f $\frac{3}{3}$ j, p. r. n.
-

52.—Mistura Belladonnæ.

- R Tinct. belladonnae..... m. ij
 Potassii bromidi..... gr. v
 Syrupi simplicis..... f $\frac{3}{3}$ ss
 Aquæ..... q. s...ad. f $\frac{3}{3}$ j
 M.—Dose, f $\frac{3}{3}$ j, p. r. n.
-

53.—Mistura Acidi Sulphurici (b—Astringent)

- R Acidi sulphurici dil..... m. ij
 Liquor morphiae sulph..... m. viij
 Elix. Curagoæ..... m. v
 Aquæ..... q. s...ad. f $\frac{3}{3}$ j
 M.—Dose, f $\frac{3}{3}$ j, every three or four hours.

54.—Mistura Bismuthi.

R	Bismuthi subnitratis.....	gr. vj
	Tr. opii deodorat.....	m̄ j
	Syrupi simplicis.....	m̄ xx
	Mist. cretæ.....q. s...ad.	fʒ j

M.—Dose, fʒ j, every two or three hours.

55.—Mistura Antifebrilis (Diaphoretic).

R	Potassii citratis.....	gr. ij
	Spt. ætheris nitrosi.....	
	Syr. limonis.....	m̄ x
	Liquor ammon. acetat.....q. s...ad	fʒ j

M.—Dose, fʒ j, every two or three hours.

56.—Mistura Pepsinæ (Digestant).

R	Pepsinæ saccharat.....	gr. iij
	Acidi muriatici dil.....	m̄ iij
	Glycerinæ	m̄ v
	Aquæ.....q. s...ad.	fʒ j

M.—Dose, fʒ j, three times daily.

57.—Mistura Potassii Acetatis (Diuretic.)

R	Potassii acetatis.....	gr. ij ss
	Sp. juniperis comp.....	m̄ v
	Sp. ætheris nitrosi.....	m̄ x
	Syr. simplicis.....	m̄ xx
	Aquæ.....q. s...ad.	fʒ j

M.—Dose, fʒ j, every three or four hours.

58.—Mistura Ammon. Carbonat. (b).

R	Ammon. carbonatis.....	gr. j
	Syrup tolutan.....	
	Syr. acaciae.....	
	Aquaæ.....	m. xx
M.	—Dose, one teaspoonful every two or three hours.	

59.—Mist. Ammonii Chloridi (c—Expectorant)

R	Syr. ipecacuanhæ.....	m. v
	Ammonii chloridi.....	gr. ij
	Syr. tolutan.....	fʒ ss
	Aquaæ.....	q. s... fʒ j
M.	—Dose, fʒ j, every three hours.	

60.—Mistura Ipecac. Comp.

R	Vini ipecacuanhæ.....	m. iij
	Sp. ætheris nitrosi.....	
	Tr. opii camphorat.....	m. iv
	Syrupi tolutani.....	m. x
	Liq. ammonii acetatis.....	q. s...ad. fʒ j
M.	—Dose, fʒ j, every three hours.	

61.—Mistura Aloes et Ferri (Laxative and Cathartic).

R	Tinct. aloes et ferri.....	m. x
	Ferri sulphatis exsiccat.....	gr. 1-6
	Syr. rhei aromat.....	q. s...ad. fʒ j
M.	—Dose, fʒ j, thrice daily.	

62.—Mistura Magnesil et Opii.

R	Magnesii sulphatis.....	gr. v
	Tr. opii deodorat.....	m ss
	Syrupi.....	m x
	Aq. menth. pip.....q. s...ad.	f 3 j
M.	Dose, f 3 j, every three hours.	

63.—Mistura Ferri et Cinchonidæ (Tonic and Antiperiodic).

R	Cinchonidiæ sulphatis.....	gr. j
	Tinct. ferri chloridi.....	m ij
	Syr. zingiberis.....	f 3 ss
	Aquæ.....q. s...ad.	f 3 j
M.	Dose, f 3 j, thrice daily, diluted.	

64.—Mistura Potassii Chlorat. (a).

R	Potassii chloratis.....	gr. ij ss
	Tinct. ferri chloridi.....	m ij ss
	Ac. muriatici dil.....	m ij
	Syr. zingiberis.....	f 3 ss
	Aquæ.....q. s...ad.	f 3 j
M.	Dose, f 3 j, every two or three hours.	

65.—Mistura Potassii Chlorat. (b).

R	Potassii chloratis.....	gr. ij
	Acidi muriatici dil.....	m ij
	Glycerinae	m x
	Aquæ.....q. s...ad.	f 3 j
M.	Dose, f 3 j, three to five times daily, in water.	

PULVERES.**66.—Pulvis Hydrarg. et Sodii (Antacid).**

- R. Hydrarg. chloridi mit..... gr. 1-10
 Soda bicarbonatis..... gr. ij
 M. et ft. chart. no. j.—Dose, one every 2 or 3 hours.

67.—Pulvis Sodii et Bismuthi.

- R. Soda bicarbonatis..... gr. iij
 Bismuthi subcarbonatis..... gr. ij
 M. et ft. chart. no. j.—Dose, one powder thrice daily.

68.—Pulvis Santonini (Anthelmintic).

- R. Santonini..... gr. ss
 Sacch. albi..... gr. j ss
 M. et ft. chart. no. j.—Dose, one or two powders
 morning and evening, the second to be followed by a purge.

69.—Pulvis Bismuthi et Opii (Astringent).

- R. Bismuthi subnitratis..... gr. v
 Pulv. opii..... gr. 1-12
 M. et ft. chart. no. j.—Dose, one powder every 3 hours.

70.—Pulvis Cretæ Præparatæ Comp.

- R. Cretæ præparatæ..... gr. iv
 Pulv. ipecac co..... gr. ss
 Pulv. aromat..... gr. ss
 M. et ft. chart. no. j.—Dose, one powder every two or
 three hours.

71.—Pulvis Hydrarg. Chloridi Mit. (Laxative)

- R. Hydrarg. chloridi mitis..... gr. $\frac{1}{2}$
 Sacchari albi..... gr. $\frac{1}{2}$
 M. et ft. chart. no. j.—Dose, one powder.

PREPARATIONS

FOR

EXTERNAL USE.

PRESCRIBING MANUAL
OF THE
CHILDREN'S HOSPITAL
OF
PHILADELPHIA.

The *doses* of all the formulæ are proportioned for children who have reached the age of *two years*, one teaspoonful ($f\frac{3}{4}j$) being the dose of each preparation.

The following table represents the *doses* for different ages, apportioned according to this standard:

6 months and over,	$\frac{1}{4}$	of a teaspoonful	= $f\frac{3}{4}\frac{1}{4}$
1 year	"	$\frac{1}{2}$	" = $f\frac{3}{4}ss$
2 years	"	1 teaspoonful	= $f\frac{3}{4}j$
4 "	"	2 teaspoonfuls	= $f\frac{3}{4}ij$
8 "	"	4 "	= $f\frac{3}{4}ss$

In prescribing, the Physician will write the *number* of the Prescription, its *title*, the *record number* or *name* of the *patient*, and the *directions*, for using it, *e.g.*—

R.

No. 1.

Liquor Cinchonidiae Sulphatis.

S.

For No. 1000.

Teaspoonful four times daily.

*Date.**Signature.*

Unless otherwise directed, the apothecary will always dispense three fluid ounces ($f\frac{3}{3}$ iiij) of the fluid preparations.

For convenience and certainty of measurement, when the dose to be prescribed is less than one fluid drachm (say $f\frac{3}{3}$ ss or $f\frac{3}{3}$ ss), the apothecary will dilute a proportional quantity (say $f\frac{3}{3}$ vj or $f\frac{3}{3}$ jss) of the mixture with sufficient of some suitable menstruum to raise the amount to three fluid ounces ($f\frac{3}{3}$ iiij), and the patient will take of this one teaspoonful ($f\frac{3}{3}$ j).

POISONS AND THEIR ANTIDOTES.

Acids, Mineral.—Alkalies in dilute solution; lime; whitewash; magnesia; soap.

Quickness of administration essential.

Avoid emetics and stomach-pump.

Acids, Vegetable—Soap; soda or potassa in dilute solution; except for *oxalic acid*, for which give lime, whitewash, or chalk.

Aconite.—Emetics; stomach-pump; tannic acid; digitalis; laudanum; warmth; stimulation; recumbent position.

Alkalies, and their salts.—Vinegar; weak acids; oil, freely; opium.

Alum.—Albumen.

Antimony, and its salts.—Tannic acid; opium; external warmth.

Arsenic, and its salts.—Emetics; stomach-pump; recently made hydrated sesquioxide of iron; magnesia; dialysed iron; oil or fat.

Atropia.—See *Belladonna*.

Belladonna.—Emetics; stomach-pump; tannic acid; morphia hypodermically.

Bismuth, and its compounds.—Albumen; milk.

Bromine.—Soap; oils.

Cannabis Indica.—Emetics; lemon juice; quiet; if exhaustion, stimulants.

Carbolic Acid.—Stomach-pump; solution of saccharate of lime; hot and cold douche.

Chloral and Chloroform.—Alternate hot and cold douche; artificial respiration; cardiac stimulants.

Coccus Indicus.—Emetics; stomach-pump; at first, give opium; chloral; chloroform; later, stimulants. No chemical antidote.

Colchicum.—Emetics; stomach-pump; tannic acid; opium; stimulants.

Conium.—Emetics; stomach-pump; artificial respiration; tannic acid; opium.

Copper, and its salts.—Albumen; milk; calcined magnesia; yellow prussiate of potash.

Croton Oil, and other drastic purgatives.—Emetics; albuminous drinks; bismuth; external heat.

Cyanide of potassium.—See Hydrocyanic acid.

Digitalis.—Emetics; stomach-pump; tannic acid; stimulants.

Gelsemium.—Same as Aconite.

Hydrocyanic acid.—Alternate hot and cold douche; intravenous injection of aqua ammoniæ; atropia hypodermically.

Hyoscyamus.—Same as Belladonna.

Iodine.—Starch, freely; if this cannot be obtained, then soap.

Iron, Salts of.—Soap; dilute alkalies; albumen.

Lead, Salts of.—Emetics; stomach-pump; alkaline sulphates; soap; albumen; milk; purge.

Mercury, Salts of.—Emetics; albumen; milk.

Opium.—Stomach-pump; atropia hypodermically; coffee; flagellation; artificial respiration; electricity.

Phosphorus.—Emetics; sulphate of copper in small doses; crude oil of turpentine; stomach-pump; avoid oils or fats.

Potash Salts.—No distinct antidote.

Santonin.—Emetics; purges; stimulants; artificial respiration.

Silver, Salts of.—Common salt, freely; albumen.

Soda Salts.—No distinct antidote.

Stramonium.—Same as Belladonna.

Strychnia.—Emetics; stomach-pump (*at first only*); tannic acid; chloral; bromide of potash; ether; chloroform; rest.

Veratrum viride.—Same as Aconite.

Zinc, Salts of.—Albumen; carbonate of soda; milk, freely.

INFANT DIET.

Diet from Birth to Age of Six Months.

(Five to six meals in 24 hours.)

MILK, CREAM, LIME-WATER, ARROWROOT WATER.

Take four tablespoonfuls of each, place in bottle with a lump of sugar, warm the whole by standing bottle in warm water.

Arrowroot Water is made by taking *one and a half* teaspoonfuls of arrowroot, rubbing it down until smooth, with a tablespoonful of cold water, and then adding *one pint* of boiling water, stirring all the time.

Diet from Six to Twelve Months Old.

(Five meals in the day.)

FIRST MEAL, 7 A. M.

Mellin's food, one tablespoonful, or Flonr Ball grated, one or two teaspoonfuls.

Hot water, four tablespoonfuls.

Warm milk, enough to make half a pint.

Dissolve the Mellin's food or rub down the grated Flonr Ball in the hot water by stirring, then add the milk, and mix thoroughly.

SECOND MEAL, 10.30 A. M. **THIRD MEAL, 2 P. M.**

A breakfast cupful of milk with four tablespoonfuls of lime-water,

FOURTH MEAL, 5.30 P. M. Same as first.

FIFTH MEAL, 10.30 P. M. Same as second.

Diet for a Child One Year Old.

(Five meals in the day.)

FIRST MEAL, 7 A. M.

Two teaspoonfuls of grated Flour Ball in half a pint of milk.

SECOND MEAL, 10.30 A. M.

Half a pint of milk with four tablespoonfuls of lime-water.

THIRD MEAL, 2 P. M.

The yolk of one egg beaten up in a teacupful of milk.

FOURTH MEAL, 5.30 P. M. Same as the first.

FIFTH MEAL. Same as the second.

FOR DRINK—Filtered water.

Diet for a Child Two Years Old.

BREAKFAST, 7.30 A. M.

Milk.

The lightly boiled yolk of an egg.

Thin bread and butter (bread one day old).

LUNCH, 11 A. M.

Milk.

A thin slice of bread and butter.

DINNER, 1.30 P. M.

Beef-tea, or small piece of minced roast beef or mutton. One well-mashed potato, moistened with gravy.

Rice and milk.

SUPPER, 6 P. M.

Milk.

Bread and butter.

FOR DRINK—Filtered water.*Diet in Mucous Disease for a Child of Seven Years.***BREAKFAST, 7.30 A. M.**

Milk, with lime-water; four tablespoonfuls of lime-water to each tumblerful of milk.

The lightly-boiled yolk of an egg, a thin slice of well-toasted bread, or stale bread.

DINNER, 12 M.

A mutton chop without fat, broiled, or a slice of roast beef or mutton, occasionally a bowl of meat broth.

Stale bread or toast.

SUPPER, 7 P. M.

Milk and lime-water.

Stale bread or toast.

FOR DRINK—Filtered water.*Starch food to be avoided as much as possible.*

—o—

BARLEY WATER.

To prepare barley water, put two good teaspoonfuls of washed pearl barley with a pint of cold water in a saucepan, and boil slowly down to two-thirds. Strain.

BEEF-TEA.

Take one pound of lean beef, and mince it. Put it, with its juice, into an *earthen* vessel containing a pint of *tepid water*, and let the whole stand for one hour; strain well, squeezing all the juice from the meat. Place on the fire, and slowly raise *just to the boiling point, stirring it briskly all the time*. Season with salt and pepper to taste.

In administering this, always be careful to stir up the sediment.

FLOUR BALL.

Take one pound of good flour—unbolted, if possible—tie it up *very tightly* in a pudding-bag; put it in a pot of boiling water early in the morning, and let it boil till bed time, then take it out and let it dry. In the morning peel off from the surface, and throw away, the thin rind of dough, and with a grater, grate down the hard dry mass into a powder. To use this, take from one to two teaspoonfuls of the powder, rub it down till smooth with a tablespoonful of cold milk, and add a tumblerful of hot milk, stirring it well all the time.

LIME-WATER.

Take a piece of unslack'd lime, as large as a walnut, put it into two quarts of clear water, stir about thoroughly, allow to settle, and use only from the top.

WINE WHEY.

Boil in a pint of fresh milk; while boiling, pour in a small tumblerful of sherry wine (eight tablespoonfuls), bring it to the boil a second time, being careful not to stir it; as soon as it boils set it aside until the curd settles, and pour off the clear whey.

PENNSYLVANIA HOSPITAL
OF
PHILADELPHIA.

St. John Long's Liniment.

Take of—

Yolks of eight eggs.....

Dr. Ackermann.

***Oleum Phosphoratum.**

R	Phosphori.....	gr. 1
	Olei morrhuae.....	grs. 99

This is a 1 per cent. solution of phosphorus in cod-liver oil, proposed by Dr. E. R. Squibb. It is made with the utmost care, and contains the full amount of phosphorus. If only a portion of the contents is to be used, a few drops of ether should be poured into the vial, before it is again corked and sealed. If a fine film should form on the surface or at the bottom, the oil must be poured out, so as to leave this in the vial. Should this film increase, or much of a precipitate make its appearance, a fresh bottle should be used.

It is best to add the whole contents of a bottle at once to sufficient cod-liver oil to be ready for administration. The latter may be kept on hand in full and well-closed bottles, which are to be kept in the dark.

When using the phosphorated oil it should always be taken by weight.

CHICAGO MARINE HOSPITAL.

U. S. MARINE-HOSPITAL SERVICE,

(District of the Great Lakes.)

PORT OF CHICAGO, ILL., SURGEONS'S OFFICE, }
MAY 15, 1885. }

DR. C. F. TAYLOR,
Philadelphia.

Sir:—I have the honor to herewith transmit the formulæ in use at this hospital. Nos. 1 to 60 are kept constantly on hand, though the practice is not routine in the hospital here, and the Rx's are prescribed where they meet the indications. They are not all original, and I would give credit if I knew to whom credit was due. I have no doubt you will find many of them duplicated from other sources. Where a "break" in numbers occurs it is by reason of retaining the hospital number, and well-known prescriptions like "Squibb's Mixture," "Brown-Sequard's Pills," etc., have been omitted. *I am not responsible for the miserable Latin in some of the formulæ, as I could not write them myself.*

Yours truly,

W. H. LONG, Surg. M. H. S.

(Note.—30 cubic centimeters equal $\frac{3}{10}$ 1.01. For

practical purposes, to reduce cubic centimeters to ounces, divide the number of cubic centimeters by thirty. One gram equals 15.432 grains, or about 15½ grains. To reduce grams to grains, multiply the number of grams by 15½.)

M.

Very respectfully yours,

F. P. MURPHY, Druggist.

MASSACHUSETTS
GENERAL HOSPITAL.
(BOSTON.)

BOSTON, March 3, 1885.

DR. C. F. TAYLOR.

Dear Sir:—In reply to yours of the 24th inst. would say, we have no printed formulary, but have a number of prescriptions which are peculiar to the Massachusetts General Hospital, and only used by the hospital staff. I will give you the Rx's that I consider peculiar to the hospital, and if I can give you any further information would be very glad to do so.

Yours very truly,

WM. L. A. CAMERON,

ST. LOUIS CITY HOSPITAL.

(ST. LOUIS, MO.)

OFFICE OF SUPERINTENDENT OF CITY HOSPITAL,
ST. LOUIS, March 22, 1885.

C. F. TAYLOR, M. D.,

Philadelphia, Pa.

Dear Sir:—Your letter of the 18th inst. received. We have no printed formulary, and our established formulary is only for antiseptics after Lister, Nussbaum, etc., which, of course, everyone has. We prepare our own gauze from caleramic cloth, using, however, iodoform dry dressings for wounds, abscesses and the like. I use five per cent. carbolized boiled linseed oil for burns and frost-bites, leaving them exposed to the air without further dressings. We use boric acid solutions in washing cavities after aspirating, where we do not have to resort to free opening. In the latter resort, we commonly employ two and a half or five per cent. solutions of carbolic acid. Corrosive sublimate solution, one part to a thousand, we use on occasion. I use the metric system in prescribing—have done so for six years—and every dose given to our nearly seven thousand patients a year is prescribed especially; *i. e.*, a small bottle or quantity at a time. We have no standard mixtures or prescriptions, but vary according to indications. Cinchonidine has been used exclusively instead of quinine for the past nine years with the best results, and not in large doses at that. To mention some particular way more often used in giving a particular remedy, like equal parts of salicylic acid and acetate of potash in syrup of lemon, is too elementary and didactic.

Yours truly,

D. V. DEAN.

Supt. and Surgeon in charge.

CINCINNATI HOSPITAL.

(CINCINNATI, OHIO.)

CINCINNATI, O., March 20, 1885.

DR. C. F. TAYLOR,

Editor *Medical World*.

Dear Sir:—Yours of the 18th, addressed to the superintendent of this hospital, has been referred by him to me, for answer. The Cincinnati Hospital has no printed formulary, and does not use one.

Our list of drugs and chemicals include *everything* that is used by the regular schools of medicine.

The hospital is conducted on a very liberal plan, and all new remedies are given a fair and thorough test as soon as they are obtainable; and, if found really valuable, their use is continued. Many remedies are in constant use in the hospital which are as yet comparatively unknown outside.

Very few actual prescriptions, as that word is commonly understood, are written. There is kept in every ward a large, portable medicine case which contains all the remedies in general use in that ward, the medicines being kept in the form of solutions, powders or pills, most convenient for administration. The resident physicians in making their rounds prescribe simply the required number of grains, or drachms, etc., of the medicine, and they are obtained from this stock.

New prescriptions are only written when some new remedy is desired, or certain combinations which cannot be made up from the ward supply. The ward supply is replenished daily from the druggist's department, and is frequently overhauled by him.

In the same way every ward is supplied with all the instruments in ordinary use in that ward.

The subject of treatment is a very large one, and I take it, you want only a general answer. The hospital staff, as a rule, believe in very little medication.

In the treatment of continued fevers, we make large use of external cold, either in the form of sponging, ice caps, cold baths, the wet pack, or ice-water coils.

Quinia is used extensively, but most of the stronger preparations, as kairin, are no longer used, being considered too depressing and dangerous.

In most diseases the principal object in the treatment is to build up and sustain the strength of the patient until the affection has run its course.

The surgeons use very extensively iodoform, powdered boracic acid, mercury bichloride solution, and in less amount, carbolic acid.

Dr. E. W. Walker is probably entitled to priority in the use of boracic acid powder for the treatment of compound fractures.

Fractures are dressed almost entirely by plaster of Paris applications, either modified Bavarian, or made of plaster rollers.

For fracture of the femur, Dr. D. S. Young has a very excellent, yet simple device of his own, which makes extension by the use of weights, and supports the entire limb in a shallow box, so that the thigh can be examined in its entirety, without any movement or pain.

The anæsthetics used are ether and the a. c. e. mixture. The muriate of cocaine is used as a local anæsthetic by the oculists and gynæcologists.

Yours etc.,

FRANK W. HENDLEY, M. D.,

Senior Resident Physician, Cincinnati Hospital.

WESTERN ·
PENNSYLVANIA HOSPITAL
FOR THE INSANE.

(DIXMONT, PA.)

DIXMONT, ALLEGHANY Co., PA., March 21, 1885.

DR. C. F. TAYLOR:

DEAR DOCTOR: In answer to your letter I may say that we have no regular form of medicines here, in fact we give very little. Many of our patients are broken down physically as well as mentally, and we depend on tonics, etc., to build them up and return them to health of body and mind.

We use almost no sleeping medicine, no chloral nor hyoscyamin, and only lupulin when really necessary, and little or no restraint.

Yours very truly,

H. A. HUTCHINSON,
Medical Superintendent.

U. S. NAVAL HOSPITAL.

(WASHINGTON, D. C.)

U. S. NAVAL HOSPITAL,

WASHINGTON, D. C., April 28, 1885.

C. F. TAYLOR, M. D.,

Editor Medical World,

Dear Doctor:—I was in Philadelphia when yours, of 18th, arrived, and regret not having seen you to explain in person that we have no printed formulary for use in the medical corps, and that I discourage set prescriptions for routine treatment in this hospital. Careful nursing and sanitation constitute a very great part of our Naval Hospital treatment.

The sick sailor, after a warm bath, clean clothes, and rest in a comfortable bed, often requires but little else. We feed the men well and dose them as little as possible. Chronic pulmonary phthisis and venereal affections constitute the larger number of our patients, and they receive the customary medical treatment.

Faithfully yours,

ALBERT L. GHON,

Medical Director, U. S. N., in charge.

U. S. MARINE HOSPITAL.

(SAN FRANCISCO, CAL.)

U. S. MARINE HOSPITAL,
SAN FRANCISCO, Cal., May 14, 1885.

C. F. TAYLOR, M. D.

Editor *Medical World,*

Philadelphia, Pa.

Dear Sir:—In reply to your letter of 18th March last requesting formulæ etc. used in this hospital, I have to say that each medical officer uses his own formulæ and varies them to suit the cases under treatment.

Very respectfully, etc.,

JNO. VANSANT,

Surg. M. H. S., in charge Hospital.

HOME OF INEBRIATES.

(SAN FRANCISCO, CAL.)

SAN FRANCISCO, Cal., March 20, 1885.

C. F. TAYLOR, M. D.

My Dear Sir:—In reply to yours of the 13th inst., I have to say, we have no printed formulary in this hospital. Each case is treated separately and distinctly, and entirely on its merits. We do not use alcohol in any form. We do use milk, *the very best*, Jersey dairy, extensively, in treatment of alcoholic cases.

To procure sleep, we use bromide potassium and chloral hydrate.

R	Potass. bromidi.....	
	Chloral hydratis.....	aa... 3 j
	Aqua.....	O j

M.—Sig. Of this mixture, one to two ounces every four hours until sleep is procured. If one ounce is enough, well and good; but we use two ounces if necessity require.

This does not often fail us, but when it does, we combine with each dose a drachm of tinct. hyoscyamus; or we give a hypodermic injection of morphia, say gr. $\frac{1}{4}$, and repeat in two hours if necessary. The principal

thing is to overcome nervous action, and procure sleep. Immediately afterwards, we produce evacuations from the bowels and look well to the bladder. To support the patient we use milk, beef tea and soup; and to stimulate, we use acetate of ammonia in full doses. Each patient is seen twice daily, at 9 A. M. and 6 P. M., and as much oftener as necessary. If he shows a tendency to sink, the battery is used freely, and long continued.

The food is of the most nourishing character. An excellent library, cards, chess, checkers, backgammon, dominoes and pictures in great profusion are used to take the patient's mind off his disease, and with very good effect.

Yours Truly,

J. G. JEWELL,

Resident Physician and Superintendent.

N. E. cor. Stockton and Chestnut streets.

—o—

SAN FRANCISCO, Cal., March 20, 1885.

C. F. TAYLOR, M. D.,

Editor Medical World,

Philadelphia, Pa.

Dear Sir:—I received yours of the 13th inst. and also the copy of the chart "The Urine in Disease," for which please accept my thanks.

Dr. Alers and myself have given up our Sanitarium for Alcoholism and Opium Habit, as we found it would not answer without some law enforcing restraint, which is wanting in this State. While under my charge (as resident physician) the formulæ used were the usual combinations of chloral hydrate and potassium bromide, given

in aquæ menthæ. In some desperate cases of delirium tremens the heroic doses of tincture of digitalis ($\frac{3}{2}$ ss) were tried with success.

The opium cases (as a general rule) were treated by a gradual reduction of the accustomed drug, combined with tonics and nerve stimulants. I treated successfully one case in which *one drachm* of morphia sulph. was taken daily. This is the largest quantity, that has *actually come under my personal observation*.

I am sorry that I cannot give you any more information on these interesting topics.

With many thanks for your kind letter, I remain,

Yours truly,

A. P. HAYNE, M. D.

533 Kearney St.

APPENDIX—

SELECTIONS FROM THE NEW
HOSPITAL FORMULARY
OF THE
Department of Public Charities and Correction
OF THE
CITY OF NEW YORK.

**MIXTURES FOR DISEASES OF THE
RESPIRATORY ORGANS.**

Cough Mixture for Adults.

(Infants' Hospital.)

℞	Ammonii chloridi.....	gr 3
	Spir. sopheris comp.....	fl 3 6
	Syr. pruni Virginianae.....	fl 3 2
	Aquaq. s ad	fl 3 4

Dissolve and mix. Dose, a teaspoonful.

Mixture Antasthmatica.

"ASTHMA MIXTURE."

(Out-Door Practice.)

℞	Codeinæ sulphatis.....	gr 4
	Potassi iodidi.....	gr 2
	Chloroformi purificati.....	fl 1 00
	Syrupi	fl 3 8
	Mucilaginis acaciae	q. s. iact

Dissolve. Dose, a teaspoonful.

Dr. N. N. Hart.

Mistura Antasthmatica.

(Fothergill's.)

B Ammonii iodidi.....	gr. 120
Ammonii bromidi.....	gr. 180
Syr. toolutani.....	fl. 3 2
Tinct. lobelia.....	fl. 3 5

Dissolve and mix. Dose, a teaspoonful.

Mistura contra Tussim.

"HOST COUCH MIXTURE."

B Tinct. hyoscyami.....	
Tinct. opii camphoratae.....	
Syr. scille.....	fl. part. sequ.
Syr. toolutani.....	fl. part. sequ.

Mix. Dose, a teaspoonful.

Mistura Expectorans, "Stokes."

STOKES' EXPECTORANT.

B Ammonii carbonatis.....	gr. 32
Extr. senega fl.....	
Extr. scilla fl.....	fl. 1
Tinct. opii camphoratae.....	fl. 6
Aqua.....	fl. 4
Syrupi toolutani.....	q. s. ad

Dissolve and mix. Dose, a teaspoonful.

Mistura Expectorans, "Struma."

(Out-Door Practice.)

B Ammonii chloridi.....	gr. 45
Syrupi ferri iodidi.....	m. 45
Syrupi senega.....	
Syrupi pruni virginianæ.....	
Syrupi acacie.....	fl. 1
Olef morrhuae.....	fl. 3

Dissolve and mix. Dose, $1\frac{1}{2}$ teaspoonfuls every 3 hours. to a child of 4 years, in Bronchitis with Struma.

Dr. T. H. Holgate.

TONICS.**Loomis' Tonic.**

B	Quininæ sulphatis.....	gr. 15
	Tr. ferri chloridi.....	fl 3 2
	Spir. chloroformi.....	fl 3 3
	Aquæ.....	fl 3 1
	Glycerini.....	fl 3 2

Dissolve and mix. Dose, a teaspoonful.

Mistura Ferri et Quininæ Citratis.

(Insane Asylum.)

B	Ferri et quininæ citratis.....	3 3
	Tinct. nucis vomicae.....	fl 3 5
	Syrupi hypophosphitum.....	fl 3 8
	Aquæ.....	q. s. ad fl 3 16

Dissolve and mix. Dose, 2 teaspoonsfuls.

Mistura Ferri et Strychninæ.

(Bellevue Hospital.)

B	Strychninæ sulphatis.....	gr. 1
	Ferri et quininæ citratis.....	3 3
	Ferri pyrophosphat.....	3 2
	Tinct. gentian comp.....	fl 3 4
	Aquæ.....	fl 3 4

Dissolve and Mix. Dose, 2 teaspoonsfuls.

Mistura pro Anæmia.

(Out-Door Practice.)

B	Ammonii chloridi.....	3 2
	Tinct. ferri chloridi.....	fl 3 4
	Glycerini.....	fl 3 1
	Aquæ.....	q. s. ad fl 3 3

Dissolve and mix. Dose, a teaspoonful.

Dr. W. H. Kotzenbach.

Mistura Tonica.—“Special Tonic.”

(Bellevue Hospital.)

B Quininæ sulphatis.....	gr. 30
Tinct. nucis vomicæ.....	ss. m 160
Tinct. ferri chloridi.....	ss. fl 3 1
Acidi phosphor. dil.....	q. s. ad fl 3 4
Syrupi.....	

Dissolve and mix. Dose, a teaspoonful.

Ward Tonic.

(Bellevue Hospital.)

B Ferri et quininæ citr.....	ss. 5 2
Ferri et strychninæ citr.....	ss. fl 3 16
Infusi calumbæ.....	

Dissolve and mix. Dose, a tablespoonful (containing nearly 1-28 grain of strychnine).

Ward Tonic.

(Fothergill's.—Charity Hospital.)

B Quininæ sulphatis.....	gr. 16
Strychninæ sulphatis.....	gr. ¾
Potassi citratis.....	gr. 90
Tinct. ferri chloridi.....	fl 3 5
Syrupi.....	fl 3 1
Aqua.....	q. s. ad fl 3 4

Dissolve and mix. Dose, a teaspoonful.

MIXTURES FOR DISEASES OF THE DIGESTIVE ORGANS.**Diarrhœa Mixture, “Loomis.”**

Tinct. lavandulae comp.....	fl 3 2
Tinct. opii.....	
Tinct. rhei	ss. fl 3 4
Olef sassafras.....	gtt. 40

Mix. Dose, a fluid drachm after each movement. Should it fail to act, add Tinct. Catechu fl 3 1.

Mistura Naphthalini.**NAPHTHALIN DIARRHEA MIXTURE.**

(Bellevue Hospital.)

B	Naphthalini recryst.....	gr. 820
	Tinct. capsici.....	gtt. 16
	Olei naphthae pip.....	gtt. 2
	Alcohol.....	
	Mucilag. acacia.....	fl 3 1

Dissolve the naphthalin in the alcohol; add the tincture and oil; and lastly, mix with the mucilage. Shake the mixture well before dispensing. Dose, 2 fluid drachms.

Note.—Commercial naphthalin is not pure enough for internal administration. Only the re-crystallized naphthalin should be used.

Mistura Stomachica.

(Bellevue Hospital.)

B	Tinct. nuc's vomicae.....	ss.	
	Tinct. capsici.....	ss.	fl 3 1
	Tinct. cinchon. comp.....	ss.	
	Tinct. gentian. comp.....	ss.	fl 3 1

Mix. Dose, a teaspoonful before meals.

—O—

MIXTURES FOR DISEASES OF THE NERVOUS SYSTEM.**"Dolirium Mixture."**

B	Potassii bromidi.....	3 2
	Tinct. lupulini.....	
	Tinct. digitalis.....	fl 3 2
	Tinct. valerian. ammon.....	fl 3 4
	Aqua.....	fl 3 2

Dissolve and mix. Dose, a teaspoonful.

Mistura Anti-epileptica.

B	Sodii bromidi.....				
	Potassii bromidi.....				
	Ammonii bromidi.....	gr.	5	5	
	Potassii iodidi	gr.	1	1	
	Ammonii iodidi.....	gr.	1	1	
	Ammonii carbonatis.....				5
	Tinct. calumbæ.....			1	1
	Aqua.....	q. s. ad		1	1

Dissolve and mix. Dose, 1½ fluid drachms before meals, and 3 fluid drachms at bed-time.

Dr. Brown-Squard.

Mistura Bromata.

B	Sodii bromidi.....				
	Ammonii bromidi.....	gr.	20		
	Tinct. opii.....	m	5		
	Aqua.....	q. s. ad	1	1	

Dissolve and mix. One dose. In restlessness of melancholia and the occasional excitement of primary and secondary dementia, especially when the general physical condition is poor.

Mistura Chloral et Hyoscyami.

B	Chloral.....				gr. 15
	Extr. hyoscyami f.....			m	12
	Aqua.....	q. s. ad	1	1	

Dissolve and mix. One dose, to be repeated as often as necessary. A double dose may be given, when required.

In maniacal excitement of general paresis and inflammatory states in general, where the exhibition of hyoscyamine alone increases the severity of the disease after its hypnotic effect has passed off, and is, therefore, contra-indicated.

Mistura Ergotæ Composita.

B	Extr. ergotæ f.....				m 30
	Potassii bromidi.....				gr. 20
	Extr. hyoscyami f.....			m	25
	Aqua.....	q. s. ad	1	1	

Dissolve and mix. One dose, three times daily, in maniacal excitement of chronic and recurrent mania.

Mixture Mervina.

HAMMOND'S OR VANCK'S MIXTURE.

B	Quinine sulphatis.....	gr. 15.	fl 3 1
	Ferri pyrophosphatis.....	idem.	gr. 1
	Strychnine:	idem.	fl 3 2
	*Acidi phosphoricid diluti.....	idem.	fl 3 2
	Syrupi singiberia.....	q. s. ad	fl 3 4
	Aqua.....	q. s. ad	fl 3 4

Add the pyrophosphate of iron to one fluid ounce of the water, and dissolve it by agitation. Mix the sulphate of quinine and the strychnine with the diluted phosphoric acid and the syrup of ginger. Then pour the two solutions together, and add enough water to make the product measure 4 fluid ounces.

Dose, a teaspoonful.

* For preparing mixtures like the above, a special diluted phosphoric acid should be kept in stock, prepared as follows:

Glacial Phosphoric Acid.....	gr. 600
Water.....	enough to make fl 3 10

Mixture pro Delirio—“D. T. Mixture.”

(Bellevue Hospital.)

B	Potassi bromidi.....	gr. 1	
	Chloral.....	gr. 4	
	Tinct. digitalis.....		
	Tinct. capsici.....		
	Tinct. singiberia.....		
	Spir. ammoniae arom.....		
	Syr. auranti cort.....	fl 3 1	
	Aqua.....	q. s. ad	fl 3 8

Mixture Antiseuraalgica—Burt's Mixture.

(Out-Door Practice.)

B	Potassi iodidi.....	gr. 30	
	Tinct. opii.....	fl 30	
	Ext. gelsemili fl.....	fl 45	
	Ext. cimifuge fl.....	fl 75	
	Syr. saraparillae comp.....	fl 3 6	
	Aqua.....	q. s. ad	fl 3 2

Dissolve and mix. Dose, a tablespoonful every four hours, in muscular rheumatism and neuralgia affecting the chest.

Dr. S. S. Burt.

MIXTURES FOR RHEUMATISM AND GOUT.**Mistura Antirhoumatica (I.)**

(Bellevue Hospital.)

B:	Potassii acetatis.....	56
	Vini colchici sem.....	fl 58
	Aquæq. s. ad	fl 54
	Dissolve and mix. Dose, a teaspoonful.	

Mistura Antirheumatica (II.)

(Charity Hospital.)

B:	Potassii iodidi.....	52
	Sodii salicylatis.....	fl 52
	Vini colchici sem.....	fl 52
	Aquæq. s. ad	fl 54

Dissolve and mix. Dose, a tablespoonful.

Mistura Colchici.

B:	Vini colchici sem.....	m 16
	Magnesii carbonatis.....	gr. 10
	Spir. aetheris nitrosi.....	
	Tinct. conii.....	m 20
	Aquæ menthae vir.....q. s. ad	fl 3 1

Mix. One dose.

Mistura Olei Gaultheriae.

(Bellevue Hospital.)

B:	Olei gaultheriae.....	m 160
	Mucilag. acaciæ.....	fl 3 2
	Glycerini.....	
	Aquæ.....	fl 3 1

Mix. Dose, one to two teaspoonfuls.

MIXTURES FOR VENEREAL DISEASES.**Mistura Biniodidi.**

B.	Hydrargyri chloridi corr.....	gr. 1
	Potassii iodidi.....	5 2
	Tinct. gentian. comp.....	5 2

Dissolve and mix. Dose, a teaspoonful.

Note.—Tincture of cinchona or other liquids containing alkaloids should not be combined in a mixture with biniodide of mercury, or with iodide of potassium and bichloride of mercury, since the alkaloids may, under certain conditions, be precipitated as iodo-hydrargyrate, and the patient might possibly take the whole precipitate with the last dose.

"Mistura Bumstead."

B.	Copalbae.....	fl 5 4
	Tinct. ferri chloridi.....	fl 5 2
	Tinct. cantharidis	fl 5 2
	Glycerini.....	fl 5 4
	Syrupi.....	q. s. ad

Mix. Dose, a tablespoonful.

Mistura Copalbae Composita.

B.	Copalbae.....	fl 5 6
	Potassii acetatis.....	5 ½
	Mucilag. acaciæ.....	fl 5 2
	Syrupi.....	fl 5 4
	Aqua.....	q. s. ad

Dissolve and mix. Dose, a tablespoonful.

Dr. S. Alexander.

"Mistura Lafayette."

B.	Copalbae.....
	Spir. ætheris nitr.....
	Tinct. lavandulæ comp.....	55..
	Liq. potassæ.....	fl 5 1
	Syrupi.....	fl 5 4

	Infusi buchu.....q. s. ad	fl 3 6

Dissolve and mix. Dose, a tablespoonful.

Dr. W. M. Polk.

—o—

MISCELLANEOUS.**Glycerite of Gelatin.—Glue Burn Mixture.**

B	Gelatini albi.....	5 7½
	Glycerini.....	fl 3 1
	Acidi carbolicci.....	fl 3 2
	Aqua.....	fl 3 16

Soak the gelatin in the cold water until it is soft; then heat it on a water-bath until it is melted. Add the glycerin and continue heating until a firm, glossy skin begins to form on the surface of the mixture, in the intervals of stirring. Now add the carbolic acid and mix intimately.

Note.—This mixture may be kept ready prepared, and is best prepared in well-closed glass or porcelain jars. When it is wanted for use, it is heated on a water-bath until just melted, and applied with a soft, flat brush over the burned part, where it will form a strong, flexible skin.

Mistura pro Ambustis, Buck.

BUCK'S BURN MIXTURE.

B	Tragacanthæ pulv.....	3	2
	Acacie pulv.....	3	4
	Syrupi fusci		
	Aquaæ bullientis.....	ss.	fl 3 16

Mix the tragacanth and acacia with the molasses to a homogeneous paste, then add the boiling water under constant stirring.

Linimentum Anodnum—“Jacob's Oil.”

(Charity Hospital.)

B	Camphora.....	ss.	
	Chloral.....	ss.	3 2
	Chloroformi.....		
	Aetheris fortioria.....	ss.	fl 3 2
	Tinct. opii.....	ss.	
	Olei sassafras.....	ss.	fl 3 1
	Linim. saponia.....	q. s. ad	fl 3 16

Dissolve and mix.

Oleum Ricini cum Atropina.

ATROPINE AND CASTOR OIL.

(Out-Door Practice.)

B	Atropinæ.....	gt. 2	
	Olei ricini.....	ss.	fl 3 1

Triturate the atropine with a little of the castor oil to a smooth paste, then gradually incorporate the remainder of the castor oil, and continue the trituration until the atropine is dissolved.

One drop to be applied to the eye every half hour. To be used in burns of the eye, by lime.

Dr. W. F. Mittendorf.

Note.—The solution of the alkaloid in the oil may be hastened by a gentle heat. The alkaloid atropine, and not the sulphate or any other salt, should be used for this preparation

Petrolatum Zinci Salicylicum.*"SALICYLIC ZINC OINTMENT."*

B.	Acidi salicylici.....	gr. 15
	Zinci oxiif.....	aa..
	Amyli pulv.....	5 2½
	Petrolati.....	3 1

Mix.

Unguentum Fuscum—Brown Ointment.

(Charity Hospital.)

B.	Argenti nitratis.....	gr. 80
	Ext. stramonii.....	aa..
	Ext. belladonnae.....	gr. 480
	Ung. hydrarg. ox. rub.	aa..
	Cerati plumbi subacet.....	gr. 80
	Bals. peruviani.....	q. s. ad 3 16

Mix. To be applied to indolent ulcers.

Note.—The above mixture is chemically incompatible, and is known to be so by the physicians using it, but is reported to give satisfactory results.

Pilius Antirheumaticæ.

B.	Ext. colocynth. comp.....	gr. 45
	Ext. colchici rad.....	gr. 30
	Ext. hyoscyami.....	aa..
	Hydrarg. chor. mitis.....	gr. 10

Mix. Divide into thirty pills.

Note.—*Ext. colchici radicis.*, U. S. Ph. 1880, is equivalent to *extractum colchici aceticum*, Us. Ph. 1870.

Pilius Colchici.

B.	Jalapee pulv.....	..
	Aloes.....	..
	Hydrarg. chlor. mitis.....	..
	Ext. colchici rad.....	aa.. gr. 12
	Ext. nucis vomicea.....	gr. 3

Mix. Divide into twelve pills. One three times daily, or every three hours, until griping is felt.

Dr. A. L. Loomis.

Pilule Opti, Belladonnae et Tiglii.**"LEAD COLIC PILL."**

B:	Opii pulv.....	gr. 1
	Olei tigliai.....	gr. 1
	Ext. belladonnae.....	gr. $\frac{1}{2}$
	Mix. One pill.	

*Dr. A. L. Loomis.***Pilule Post Partum.****BARKER'S "POST PARTUM" PILLS.**

B:	Extr. colocynth. comp.....	gr. 20
	Ext. aloes.....	gr. 15
	Ext. hyoscyami.....	gr. 10
	Ext. nucis vomicea.....	gr. 5
	Res. podophylli.....	aa..
	Ipecacuanhae pulv.....	gr. 1

Mix. Divide into twelve pills.

*Dr. Fordyce Barker.***Pilule pro Subinvolutione.**

(Bellevue Hospital.)

B:	Ferri redacti.....	aa..
	Quinina sulphatis.....	aa..
	Ergotini purificati.....	gr. 24
	Strychninae sulphatis.....	gr. $\frac{1}{2}$

Ext. Gentianæ..... q. s.

Mix. Divide into twenty-four pills.

Note.—The proportions of reduced iron and sulphate of quinine are sometimes altered. "Ergotin" is a name applied, not to an active principle, but to a purified extract of ergot, in which a large proportion of the inert constituents have been removed by means of alcohol.

Pulvis Acidi Borici et Iodoformi.

(Out-Door Practice.)

B:	Acidi borici.....	gr. 120
	Acidi tannici.....	gr. 10
	Iodoformi.....	gr. 60
	Mix. To be applied, once a day, to everted and granulated eyelids.	

Dr. W. F. Mittendorf.

Pulvis Iodoformi Compositus.

(Charity Hospital.)

B	Iodoformi.....	part. 1
	Zinci carbonatis.....	part. 3
Mix. To be applied with a blower, or by means of a dusting box, as a dressing in venereal sores, ulcers, etc.		

Pulvis Iodoformi Inodorum.

(Out-Door Practice.)

B	Iodoformi.....	gr. 180
	Acidi tannici.....	gr. 60

Mix. To be applied to ear, mornings and evenings, in granulations of external auditory canal.

Dr. W. F. Mittendorf.

A-C-E Mixture.

B	Alcohol.....	fl 3 1
	Chloroformi purificati.....	fl 3 2
	Ætheris fortioris.....	fl 3 3

Mix. For Anæstheria.

Liquor Hypophosphitum Compositus.

(Bellevue Hospital.)

B	Calcii hypophosphitis.....	gr. 640
	Sodii hypophosphitum.....	gr. 384
	Potassii hypophosphitum.....	gr. 128
	Liq. Ferri hypophosphitum.....	fl 384
	Aqua.....	q. s. ad fl 3 32

Dissolve and filter. Dose, one to four fluid-drachms.

Dr. W. M. Polk.

Note.—The solution of hypophosphate of iron is that of the New York and Brooklyn Formulary, six minims of which contain one grain of the salt.

Liquor Potassii Chloratis et Ferri.*"JACOBI'S SPECIAL."*

B	Potassii chloratis.....	gr. 50
	Tinct. ferri chloridi.....	m 160
	Glycerini.....	f 5 2
	Aqua.....	q. s. ad f 5 8

Dissolve and mix. Dose, half a fluid-ounce.

*Dr. Abraham Jacobi.***Mistura Anedyna—"Gibson's Special."**

(Bellevue Hospital.)

B	Tinct. opii.....	m 90
	Ext. belladonnae fl.	m 16
	Chloroformi purificati.....	m 30
	Syrupi.....	
	Aqua.....	f 5 4

Mix.

Morell's Embalming Liquid.

B	Arsenious acid.....	14 parts.
	Soda (caustic).....	7 parts.
	Carbolic acid.....	a suff. quantity
	Water.....	enough to make 100 parts.

Dissolve the arsenious acid and the caustic soda in twenty parts of water with the acid of heat. Allow the solution to cool, and then add to it just enough carbolic acid to render it opalescent. Finally, add enough water to make the product weigh one hundred parts.

Used for embalming, and for preserving anatomical specimens.
